Addendum No. (2)

Central Tender (101/2024)

Prequalification (PQ) for Procurement of Services for the Performance Based Operation and maintenance Contract for Wadi Arab II Water Supply System

Dear Sirs,

Please find below our responses to the questions received for the a/m project. This addendum shall be considered an integral part of the prequalification documents.

No.	Question	Response
1	<p>With reference to the Prequalification criteria, Section III - Evaluation and prequalification Criteria, we would appreciate your acceptance to modify the criterion No. (3.1, 3.2, 4.1, 4.2, 5.1, 5.2, 5.3, 5.5) where these criterions do not match with the local Contractors, where the projects were implemented in Jordan in the previous years were with smaller capacities & capabilities than required. We are the most experienced company and are classified 1st grade company in water desalination & water Treatment plants & 1st grade wastewater treatment plants and we have accomplished the biggest projects in Jordan and they do not match the required capacities.</p>	<p>Please adhere to the qualification criteria outlined in the PQ document.</p>
2	<p>We are writing to formally request permission to participate in Central Tender No. 101/2024 for the Performance-Based Operation and Maintenance Contract for Wadi Arab II Water. As a national contractor, we hold a valid second-grade classification certificate in the field of water treatment plants.</p> <p>We believe that our participation will enhance competition among bidders for this significant project. It is essential to open the tender process to qualified companies with relevant experienced operational activities. This approach not only promotes a competitive environment but also ensures maximum benefits for the client.</p> <p>Our company has extensive experience in operating water treatment plants, particularly in the area of drinking water. We have successfully completed numerous projects, including high-capacity drinking water plants that address challenging water quality issues, serving both governmental and private sectors.</p> <p>For your review, we have enclosed our complete qualification documents.</p> <p>We kindly await your favorable response at your earliest convenience Thank you for considering our request.</p>	<p>To meet the qualification criteria for this tender, Jordanian contractors are required to hold a valid First Grade classification certificate in the field of Water and Sewerage, with a specialization in Wastewater and Drinking Water Treatment Plants. This qualification is applicable for single contractors or those participating in a Joint Venture (JV).</p>
